About AIG

For over 100 years, we have been addressing the needs of our customers around the world.

As a reliable partner, we accompany our customers from A to Z and effectively support them in avoiding and covering risks. AIG provides coverage through attractive insurance products and services for companies all over the world – from small and commercial businesses to insurance solutions for individuals to medium-sized companies and large multinational corporations.

With underwriting know-how for the entire insurance market, extensive claims expertise and our broad international presence, we support our customers in protecting their respective risks. Excellent service and the financial strength of an insurer that is one of the largest in the world, form a secure overall package for our customers' needs.

Our offer includes solutions for traditional insurance services such as General Liability, Property and Financial Lines, Trade Credit, Environmental liability, Marine and carrier liability insurance, Product recalls & Crisis management, but also high-special areas such as solutions for political risk and the Aviation industry. We also offer a wide variety of products that meet the specific requirements of individual industries and market segments. We also offer personal insurance solutions tailored to the special needs of individuals and families.

For you on site

AIG has been active in Germany, Austria and in Switzerland for more than 75, 50 and 60 years and since then has always been available to policyholders with local teams of experienced experts in important locations. We are convinced that advice from a competent and experienced broker is the prerequisite for solid coverage. For this reason, we rely on this distribution channel and have one goal together with you: your success. We not only convince with our many years of experience, but also stand by our customers as reliable experts.

Why AIG?

AIG provides support in the management of insurance and risk management and is seeing the needs of aircraft manufacturers and suppliers, as well as aircraft operators, airports and space risks. We have accepted this mission for more than 60 years with consistency and engagement leading to a combination of technical skills, stability and a sound financial strength.
